DETAILED ACTION

Allowable Subject Matter

1. Claims 1-66 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record teaches or suggests an image forming apparatus comprising a single developing unit having two developing devices facing the image carrier and each configured to develop a particular latent image formed on the image carrier with a respective developer carrier, and a rotating means for causing the developing unit to angularly move about a preselected axis; wherein the rotating means selectively moves the developing unit to one of:

a position where one of the developing devices is located at a developing position close to the image carrier while the other developing device is located at a non-developing position spaced from the image carrier,

a position where said the one developing device is located at a non-developing position spaced from the image carrier while the other developing device is located at a developing position close to the image carrier, and

a position where said two developing devices both are located at the non-developing positions.

Prior Art

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Art Unit: 2852

- Itaya ['225] discloses a developing apparatus having two developing rollers.
- Saruwatari et al. ['261] disclose an image forming apparatus with variable rotational speed of developers.
- Bresina et al. ['868] disclose a multi roll developing apparatus.
